Full-Value Protection

Make your best move with Atlas and don't worry about a thing.

When you choose Full-Value Protection (FVP), Atlas takes total responsibility for your goods while they are in our care. In the event of loss or damage, Atlas pays to repair or replace your goods based on current market value.

Every day is moving day for Atlas, and we are prepared for anything. However, even with the best equipment and skilled Professional Van Operators, unexpected things can happen. But don't worry. When you choose **Full-Value Protection (FVP)**, we take total responsibility for your goods while they are in our care.

Our most comprehensive protection plan.

Although it is not insurance, FVP works in a similar way. In the event of loss or damage, your items will be repaired or replaced at their current market value. The price for FVP is affordable; the amount of coverage you need depends on the weight of your shipment.

- Choose our "no deductible" option — one of the industry's lowest plans.
- Or select a modest deductible (\$250 or \$500) for an even lower cost.

Get our best assurance as you go new places.®

We value your satisfaction above all else. We monitor our performance on every move, and we are continuously raising our service standards. We do all we can to make sure your things arrive in the condition you expect. No matter what happens, FVP enables us to "make it right."

Make your best move with Atlas and Full-Value Protection. **Talk to your Atlas Account Representative about which option is right for you.**

Expect More

Regardless of how large or small the move, it can be a big leap from where you are now. Atlas knows this, and that's why — since 1948 — we've worked hard to make your move easier, whether it's across town, across country, or across the ocean.

Today, we're the most trusted partner of corporations to move their employees and families, a respected choice of demanding military and government customers, preferred by individual families wanting to make their best move.

It's what we do, every day. And we never stop thinking of ways to do it better.
